

**REMARKS**

In response to the Notice concerning the Sequence Listing in Computer Readable Form, Applicant submits 3 (three) copies of the Sequence Listing on CD-ROM (two copies to replace the paper sequence listing and 1 copy to serve as the CRF copy). In response to the error notations at several of the sequences indicating an error in numbering, Applicant has reviewed the original paper sequence listing filed in this case. In each instance, the first segment of 10 nucleotides was missing from the CD-ROM version and Applicant has inserted this block from the original paper sequence listing so that no new matter has been added. In addition, Applicant has reviewed the sequence listing for sequences that contain an "n" and believes that in each such instance a suitable range has been noted at <222>. Applicant believes there are no further formal errors in the sequence listing.

The Commissioner is authorized to charge payment of any additional filing fees required under 37 CFR 1.16 associated with this communication or credit any overpayment to Deposit Account No. 03-0678.
